

Hardwood Lumber

DESCRIPTION

Timber Products is one of the leading producers of high-quality hardwood lumber. Our lumber is available in a broad variety of species, such as our renowned white hard maple. We meticulously inspect and sort our wood using a computerized dry grading and sorting system to guarantee every piece meets our high standard of quality.

In addition to our digital sorting process, each piece of our hardwood lumber is inspected on both faces by a team of expert graders. Because our wood is used in a variety of applications, from cabinets to basketball courts, we strive to produce high quality lumber that meets our customers' specifications.

APPLICATIONS

Our hardwood lumber performs consistently in a wide range of uses, including moulding, furniture components, flooring and flooring systems, cabinetry, pallets and railroad ties.

THE BENEFITS OF USING OUR HARDWOOD LUMBER:

- Durable
- Versatile
- Available in a variety of species
- Whitest hard maple
- Available planed or rough

HOW IT'S MADE

Our hardwood lumber facility in Munising, Michigan is known as the Maple King of the industry. It's where our talented engineers and craftsmen manufacture our full range of lumber from premium northern hardwoods.

We take great pride in investing in the latest technology and expertise in order to manufacture our lumber with the greatest possible efficiency. By engineering everything in-house, we're able to give each product the attention it deserves from start to finish.
