

Clearing the Air

KNOW THE FACTS ABOUT HARDWOOD PLYWOOD EMISSIONS

A BREATH OF FRESH AIR

For nearly 100 years, Timber Products has pioneered hardwood plywood manufacturing. Today, all of our hardwood plywood is environmentally certified and meets the strictest emission requirements in North America.

CERTIFICATIONS

Our award-winning products are a testament to our environmental stewardship and leadership.

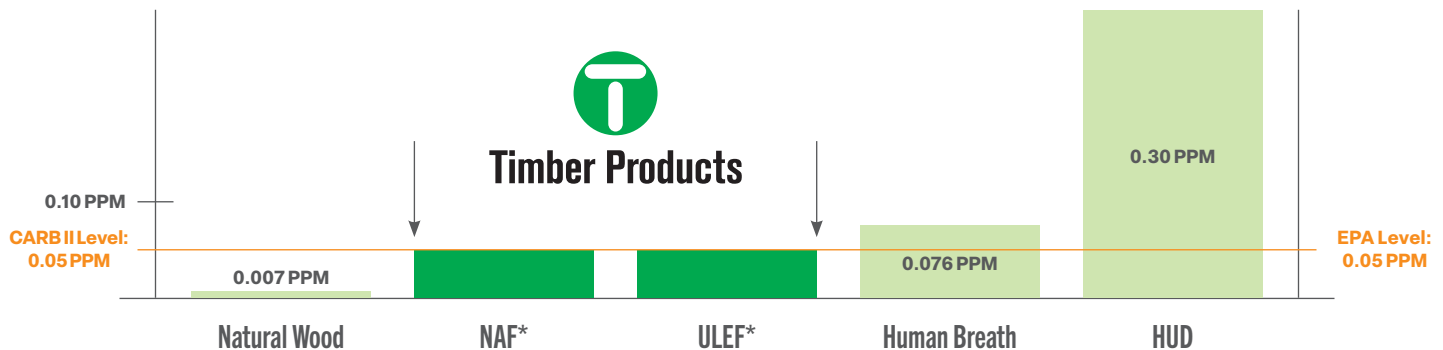

- CANFER Compliant
- Qualifies for LEED® Credit
- CARB/TSCA TITLE VI COMPLIANT
- FSC® Chain-of-Custody certified upon request

Our commitment to excellence allows Timber Products to offer unmatched product quality and the industry's best service. We are a tremendous resource to our customers and a steward of the environment.

SAFE, LOW-EMITTING PANEL PRODUCTS

Our hardwood plywood products have emission levels that approach the low levels from natural wood.

Formaldehyde Emissions in Parts Per Million (PPM)

*Each of these levels are below the CARB II requirement of 0.05 PPM, the most stringent emission requirement in North America.

EMISSION FACTS

Formaldehyde is a simple chemical compound made of hydrogen, oxygen and carbon, with the formula CH_2O . All organic life forms – bacteria, plants, fish, animals and humans – make formaldehyde at various levels. Formaldehyde does not accumulate in the environment or within people, as metabolic processes quickly break it down in the body and the atmosphere. It has become an essential part of the production of hundreds of beneficial products that are used every day in homes and factories. Formaldehyde-based technologies are an important part of the U.S. economy, as they are used to produce a wide range of materials.

Timber Products is one of the nation's largest and most respected manufacturers of a comprehensive range of wood products.

As an independently owned, fully integrated company with dedicated manufacturing facilities in both the Western and Eastern United States, we provide immediate access to a

vast selection of products and services. We've implemented new technologies to make our operations more efficient and our products more cost-effective. We can respond to your needs faster, with greater flexibility and with an absolute assurance of quality.
